Guidelines for on campus in-person events by recommendations student groups as of today through October 11, 2020

In order to comply with the University’s Maroon and Gold Sunrise Plan, the following guidelines apply to indoor and outdoor on-campus events until the completion of Step Two, October 11, 2020:

● All student groups are encouraged to conduct all activities, events and meetings virtually.

● In-person student group event reservation requests will not be approved if scheduled to occur between now and the end of Step Two, October 11, 2020.
  ○ Currently scheduled in-person student group events in the above time frame will be cancelled.

● Currently registered student groups may hold small in-person meetings as long as they are complying with safety guidelines and the total attendees are the lesser of the venue capacity or 10 persons. Student groups must comply with all applicable guidelines, including face coverings, physical distancing, and registering attendees. Food and beverages are not allowed for small group meetings.

● Because of University department oversight, student groups classified as Campus Life Programs * (CLPs) may host events only if they meet all of the following requirements:
  ○ They follow all University of Minnesota and Minnesota Department of Health guidelines and requirements
  ○ Groups assemble and agree to follow a public health safety plan
  ○ Their CLP advisor or other delegated University staff member from their department have reviewed and approved their event safety plan, will be responsible for event compliance and will be present at the event or activity if needed.

● Student groups may request event space for dates after October 11 with the caveat that these reservations are not approved at this time and are subject to further University review and approval of progress on the Maroon and Gold Sunrise plan. If you are planning events that would occur after October 11th, please set up an appointment with a Student Activities Advisor at z.umn.edu/sgeventadvising.

*NOTE: There are two classifications of Registered Student Groups (RSGs):
  1) Registered Student Organizations (RSOs), are independent of the University.
  2) Campus Life Programs (CLPs) are part of a University department and therefore, also part of the University.

**NOTE: University departments may sponsor in-person events on campus within guidelines, dependent upon University staff members from that department being present to monitor compliance to safety protocols.
